Misk Foundation (hereinafter referred to as ‘the Foundation’) welcomes all companies willing to compete over the implementation of the Foundation’s business, projects, or procurement. Before preparation proposals, Bidders shall read and understand the terms and specifications provided for herein.

All Bidders willing to submit proposals for the implementations of the Foundation’s projects or procurement shall fully comply with every testament stipulated herein. To this end, all pages herein and enclosed forms shall be signed by the owner of the company/organization (the Vendor) or an authorized signatory with the official stamp on each page thereof.

Issuing Authority

Misk Foundation (the Foundation) is the issuing authority of the RFP. Should you have any queries, please contact the Foundation through the supplier portal, or through the e-mail provided for herein at the beginning of this document.

Background

The Misk Leadership Track

The Foundation’s leadership offerings are delivered through the Misk Leadership Track, a connected portfolio of signature programs designed for successive leadership levels:

- 1-** Early Leadership Development targets young Saudis early in their academic journeys, offering mentorship, training, and preparation for university and beyond.
 - a. Distinct College Preparatory Program – a 2.5-year initiative for high-performing high school students, providing admissions counseling, standardized test preparation (SAT, IELTS, TOEFL), and immersive summer experiences. 460 beneficiaries are currently enrolled.
 - b. Misk Fellowship – aimed at Saudi students attending leading universities, providing comprehensive leadership training, mentorship, and global exposure. 70 beneficiaries are enrolled every year.
- 2-** Young Leadership Programs equip young professionals with the skills to grow as influential leaders within key sectors.
 - a. Ignited Voices – an 8-week program focused on media and ambassadorial skills, equipping young talents with public speaking, media engagement, and storytelling skills. 100 beneficiaries are enrolled every year.
 - b. 10X Saudi Leaders – designed for professionals with 4-8 years of experience, emphasising leadership agility, strategic planning, and innovation, and aligned with Vision 2030 priorities. 250 beneficiaries are enrolled every year.

- 3- Senior Leadership Development cultivates high-level strategic leaders who can directly support Saudi Arabia's Vision 2030 and take on transformative roles within the Kingdom.
 - a. 2030 Leaders – targets high-potential senior leaders and executives, providing advanced skills in strategic leadership and innovation. It is highly selective. 90 executive beneficiaries are enrolled every year.
- 4- Alumni and Continued Development sustains the growth of the Track's graduates and keeps them connected to one another and to the Kingdom's leadership agenda.
 - a. Saudi Leaders Society (SLS) – an exclusive network for graduates of Misk's leadership programs, supporting continued professional growth, cross-sectorial networking, and opportunities to give back. 670 members are currently in this community, which continues to expand.

This RFP addresses the Leadership Track in its entirety. The Foundation is seeking a partner to work across all of these programs rather than for any single one of them.

The Case for a Leadership Track Competency Model

The programs above have grown as a portfolio. Each has its own target audience, selection criteria, curriculum, and measures of success, and each describes leadership in its own terms. The Foundation now requires a single leadership competency model that spans the whole Track: one shared definition of what good leadership looks like for the Saudi leaders who will deliver Vision 2030, expressed at proficiency levels appropriate to each stage, from students and early-career talent, through first-level leaders, to senior executives and the alumni community.

A Track-wide model would allow the Foundation to select consistently across its programs, to describe a beneficiary's development in the same language whichever program they join, to aggregate competency data across programs, cohorts, and years, and to evidence the growth its programs produce.

The Foundation has deliberately not prescribed the competencies in this RFP. Bidders are expected to arrive at them through their own research and through analysis of the Leadership Track, the Foundation's ambitions, and the Saudi leadership context, and to justify the model they propose on the evidence they gather. Program curricula, learning objectives, selection criteria, and beneficiary and alumni population data will be made available to support that work.

The number of competencies, their structure, their naming, and the language in which they are expressed are for the Bidder to propose and for the Foundation to approve.

Project Goals and Objectives

The Misk Leadership Competency Model and Assessment Project aims, first, at developing a leadership competency model for the Foundation's Leadership Track, grounded in research and in analysis of the Track's programs, beneficiaries, and objectives and, second, at designing, developing, and validating a customized assessment against that model, delivering the assessment as a fully operational digital tool, and training the Foundation's team and other nominated members to use the tool independently and to a professional standard.

The Leadership Track comprises the Distinct College Preparatory Program, the Misk Fellowship, Ignited Voices, 10X Saudi Leaders, 2030 Leaders, and the Saudi Leaders Society (SLS). The competency model and the assessment shall serve all of them, and shall support the Foundation's use of competency data in selection, individual development, program design, and impact measurement.

The Need for a Customized Assessment for Misk

Off-the-shelf leadership assessments are built on vendors' own global competency frameworks. They are not designed for the Saudi leadership context, they measure constructs the Foundation has not chosen, and they do not produce data that can be aggregated meaningfully across the Leadership Track. The Foundation therefore requires an assessment that is purpose-built around the competency model developed under this engagement. The assessment shall:

- **Measure the Foundation's own model directly** - items, scales, scoring, and reports mapped one-to-one to the competencies and behavioural indicators developed under this engagement, rather than mapped indirectly onto a Vendor's proprietary framework.
- **Be valid in the Saudi context** - developed, piloted, and normed on Saudi and regional leader populations, with culturally appropriate scenarios, content, and language.
- **Be fully bilingual** - Arabic and English versions of equal psychometric quality, developed and validated in parallel rather than translated from a single source version.
- **Be calibrated across leadership levels** - one architecture, expressed at proficiency levels appropriate to early leaders, young professionals, first-level leaders, senior leaders, and executives.
- **Be owned by the Foundation** - the Foundation shall own the competency model, the customized assessment content, item bank, scoring rules, norms, reports, and all data generated, with any underlying Vendor engine or platform licensed on clearly stated terms.

- **Be sustainable in-house** - the Foundation's team shall be able to administer, interpret, debrief, and report on the assessment without depending on the Vendor for routine operation.
- **Be compliant** - aligned with the Personal Data Protection Law (PDPL) of the Kingdom of Saudi Arabia, the Foundation's information security requirements, and recognised professional standards for the fair use of assessments.

Uses of the Assessment

The Foundation intends to use the assessment across the leadership lifecycle. Proposed solutions shall support, as a minimum, the following uses:

- **Selection and admissions** - screening, shortlisting, and final selection of candidates across Leadership Track programs, including inputs to competency-based interviews and to the admission committee's decision.
- **Candidate feedback** - providing evaluation and feedback reports to candidates who reach advanced selection stages, whether or not they are accepted, consistent with the Foundation's commitment to make selection itself a learning experience.
- **Individual development planning** - establishing an entry baseline for every beneficiary and generating a personal development plan against the competency model.
- **Development feedback and debriefs** - giving the Foundation's certified debriefers and program teams a common, evidence-based basis for one-to-one feedback conversations and for tracking a beneficiary's progress against the model.
- **Program and curriculum design** - using aggregated cohort data to shape module content, electives, capstone challenges, and the design of new interventions across the Leadership Track.
- **Impact measurement** - pre-program, post-program, and follow-up measurement to evidence competency growth and demonstrate the return on the Foundation's investment to internal and external stakeholders.
- **Cohort and portfolio benchmarking** - comparing cohorts, programs, sectors, and years, and building a Kingdom-level picture of leadership strengths and capability gaps.
- **Alumni and community development** - supporting the continued development of Saudi Leaders Society members and informing the design of alumni offerings.
- **Assessor and faculty calibration** - providing a shared standard and common language for everyone who selects, teaches, and evaluates within the Leadership Track.

Assessment Population and Indicative Volumes

The indicative annual assessment population across the Leadership Track is set out below. Volumes are indicative only, and the Foundation shall be entitled to increase or reduce them in accordance with the General Provisions herein. Bidders shall price on a per-assessment basis in addition to any lump sum, so that volumes can be varied.

Program (Leadership Level)	Indicative Annual Volume
Distinct College Preparatory Program (early leadership – pre-university)	460 beneficiaries currently enrolled
Misk Fellowship (early leadership – university)	70 beneficiaries per year
Ignited Voices (young professionals)	100 beneficiaries per year
10X Saudi Leaders (first-level leaders)	250 beneficiaries per year
2030 Leaders (senior leaders and executives)	90 beneficiaries per year
Saudi Leaders Society (mixed – first-level leaders and executives)	670+ members; assessed on a call-off basis
Selection and admission screening across all programs (all levels)	To be confirmed; to be priced per assessment

Scope of Work

Bidders shall provide detailed methodology for the implementation of the scope of work hereunder outlined, the timeframe, and proposed team members for the implementation of the entire work. All mandatory requirements stipulated in the detailed scope of work shall be fulfilled. Any other additions or recommendations on the scope of work may be accepted, provided that the significance and justification of the proposed recommendations are clarified.

No.	Scope of Work	Details	Assumptions	Expected Deliverables
1	Competency Model	The objective of this scope is to research, design, and develop a leadership competency model for the Misk Leadership Track, grounded in evidence and validated with the Foundation. The Vendor shall: Analyse the Leadership Track in depth, including the objectives, target audiences, curricula, selection criteria, and intended outcomes of each program, and the profile of the beneficiaries and alumni each program serves.	- The Foundation shall provide program materials, curricula, selection criteria, population data, and access to stakeholders. - The Vendor shall develop a model specific to the Foundation. A standard vendor framework	- Research and analysis report covering the Leadership Track, the stakeholder engagement, and the Saudi leadership context. - Benchmarking report. - Proposed leadership competency model, with definitions, behavioural indicators, and

Request for Proposal (RFP) Misk Leadership Competency Model and Assessment

		• Conduct stakeholder engagement through interviews and focus groups with Foundation leadership, program owners, faculty, alumni, and a sample of beneficiaries and their sponsoring organisations. • Analyse the Saudi leadership context, including the demands Vision 2030 places on leaders across the public, private, and non-profit sectors, and the leadership behaviours that differentiate high performance in the Kingdom. • Conduct role and behavioural analysis appropriate to each leadership level represented in the Track, using recognised competency modelling methods such as behavioural event interviewing, critical incident technique, repertory grid, or equivalent, and state the methods used and why. • Benchmark against recognised leadership frameworks and against comparable national leadership programs, and set out clearly what the Foundation's model draws from them and where it deliberately differs. • Propose the competency architecture: the competencies themselves, their definitions, their clusters or groupings if any, observable behavioural indicators, and proficiency levels for early leaders, young professionals, first-level leaders, senior leaders, and executives. • Justify the proposed model against the evidence gathered, and set out the alternatives considered and why they were not taken forward. • Produce a bilingual competency dictionary and present the model to the Foundation for approval before assessment design begins.	relabelled for Misk shall not be acceptable. • The number of competencies, their structure, and their naming are for the Vendor to propose and for the Foundation to approve. • All outputs shall be delivered in both Arabic and English. • The approved model shall be signed off by the Foundation as a stage gate before Scope 2 commences.	proficiency levels by leadership level, and the evidence and rationale behind each competency. • Bilingual competency dictionary. • Stakeholder validation workshop and approved sign-off document.
--	--	--	--	---

Request for Proposal (RFP) Risk Leadership Competency Model and Assessment

2	Assessment Design	The objective of this scope is to design and build an assessment that is customized to the approved competency model and to the Saudi leadership context, and that serves the uses set out in this RFP. The Vendor shall: • Propose and agree an assessment blueprint setting out the methods to be used and the rationale for each. Methods may include, but are not limited to, competency-based self and multi-rater (360°) instruments, situational judgement tests using Saudi-contextualised scenarios, psychometric and personality measures, cognitive and critical-thinking measures where appropriate to level, virtual assessment-centre exercises, and structured competency-based interview guides. • Design differentiated versions appropriate to each leadership level and to each use case, distinguishing clearly between selection use and developmental use. • Author all items, scenarios, rating scales, and scoring rules specifically against the approved competency model. • Develop the Arabic and English versions in parallel, with linguistic and cultural equivalence review. Translation of an existing instrument shall not be acceptable. • Define the scoring model, including weighting and the rules by which results roll up to competency, cluster, and overall level. • Design the report suite, including individual, facilitator, program owner, and executive or cohort reports, with visualisation, narrative interpretation, and development suggestions linked to the Foundation's development	• The Vendor has demonstrable expertise in psychometric instrument design and in Arabic-language assessment development. • Content shall be developed specifically for the Foundation and shall not be re-used from other clients' instruments. • Design decisions shall be reviewed and approved by the Foundation at each agreed stage gate. • Estimated completion time is under 60 minutes per instrument unless otherwise justified by the Vendor.	• Approved assessment blueprint and technical design document. • Complete item bank and assessment content in Arabic and English. • Scoring model and interpretation guidelines. • Report templates for each audience, in Arabic and English. • Bias and fairness review report.
---	-------------------	--	--	--

Request for Proposal (RFP) Misk Leadership Competency Model and Assessment

		offerings. • Conduct a bias and fairness review of all assessment content and scoring.		
3	Validation and Norming	The objective of this scope is to demonstrate that the assessment is reliable, valid, and fair for the populations with which it will be used, and to establish norms relevant to the Saudi leadership market. The Vendor shall: • Pilot the assessment with an agreed sample drawn from Leadership Track beneficiaries, alumni, and comparable Saudi leader populations. • Report reliability (internal consistency and, where applicable, test-retest), construct validity, criterion-related validity, and measurement invariance between the Arabic and English versions. • Build norm groups by leadership level and by language, and define the process by which norms will be refreshed as data accumulates. • Recommend cut-scores and decision rules for selection use, with documented justification and adverse-impact analysis. • Refine items, scoring, and reports on the basis of pilot results and re-test where required. • Produce a technical manual meeting recognised professional standards, such as the AERA/APA/NCME Standards for Educational and Psychological Testing, or EFPA or BPS test review criteria, or equivalent.	• The Foundation shall facilitate access to pilot participants; the Vendor shall manage pilot administration, analysis, and reporting. • Sample sizes proposed by the Vendor shall be sufficient to support the validity claims made, and shall be stated in the proposal. • The Vendor shall re-validate the assessment at intervals agreed with the Foundation during the contract term. • All pilot data shall be handled in accordance with the confidentiality and data protection requirements herein.	• Pilot plan and completed pilot administration. • Psychometric validation report. • Norm tables by leadership level and language. • Recommended cut-scores, decision rules, and adverse-impact analysis. • Technical manual and user manual.
4	Assessment Tool	The objective of this scope is to deliver the assessment as a secure, working digital tool that the Foundation's team can operate for itself. The tool shall provide the following, but not be limited to:	• The tool may be delivered on the Vendor's existing platform configured for the Foundation,	• Configured, tested, and live assessment platform. • Administrator console with the Foundation's user

Request for Proposal (RFP) Misk Leadership Competency Model and Assessment

		• Administration: a secure online platform hosting all assessment versions in Arabic and English, on desktop and mobile, with full right-to-left support in the Arabic interface. • Participant journey: automated invitations, reminders, registration, informed consent, completion, and report release, all configurable by the Foundation. • Multi-rater administration: rater nomination, approval, progress tracking, and anonymity rules for 360° instruments. • Administrator console: the Foundation's team shall be able to create cohorts and projects, assign assessments, monitor completion, release reports, and export data without Vendor intervention. • Reporting engine: automated generation of individual, facilitator, program owner, and cohort reports in Arabic and English. • Analytics and dashboards: program-level and Track-level dashboards showing competency profiles, capability gaps, trends over time, and pre- and post-program comparison. • Integration: API or agreed import and export mechanisms to integrate with the Foundation's existing program management and beneficiary systems, together with single sign-on. • Security and privacy: compliance with the Personal Data Protection Law (PDPL) of the Kingdom of Saudi Arabia and the Foundation's information security requirements, with data residency, retention, encryption, access control, audit logging, and data return or destruction on exit all clearly stated.	provided that the Misk-specific content, reports, and data remain the property of the Foundation. • Licensing shall be clearly stated, including the basis of the licence (per assessment, per user, or enterprise), the term, renewal cost, and the cost of additional volume. • The Foundation shall have full access to its own data at all times and upon exit, in a documented, machine-readable format. • Any use of artificial intelligence within scoring or reporting shall be disclosed, explained, and validated.	roles and permissions. • Automated bilingual reporting and analytics dashboards. • Integration and single sign-on as agreed. • Security, privacy, and data protection documentation. • Platform documentation, service level agreement, and support model.
--	--	---	---	--

Request for Proposal (RFP) Risk Leadership Competency Model and Assessment

		• Accessibility: conformance with recognised accessibility standards. • Service levels: stated availability, support hours, response and resolution times, maintenance windows, and release schedule.		
5	Training and Enablement	The objective of this scope is to enable the Foundation's team and its extended network to use the assessment independently, ethically, and to a professional standard, and to reduce the Foundation's long-term dependence on the Vendor. The Vendor shall deliver: • Administrator training: enabling the Foundation's team to configure projects, launch assessments, manage participants and raters, generate reports, and extract data. • Certification training: a structured accreditation for the Foundation's team, program managers, facilitators, selected faculty, and other members nominated by the Foundation, covering the competency model, the psychometric basis of the tool, ethical and professional use, interpretation of results, and one-to-one feedback and debrief skills. Certification shall be formally awarded, and any re-certification requirement shall be stated. • Supervised practice: observed practice debriefs, with assessment against defined criteria before certification is granted. • Interviewer and assessor training: competency-based interviewing, use of assessment output in selection decisions, and assessor calibration sessions for panel members and admission committees. • Participant orientation: short	• Training shall be available both virtually and face-to-face in Riyadh, and shall be delivered in Arabic and English. • The Vendor shall state the number of cohorts and the number of participants per cohort included in the base price, and shall price additional cohorts on a rate card. • The Foundation shall retain the right to reuse all training materials internally after the engagement ends. • Trainers shall hold recognised credentials in psychometric assessment and shall be approved by the Foundation.	• Training plan and curriculum by audience. • Delivered administrator, certification, interviewer or assessor, and train-the-trainer cohorts. • Certification records for every trained individual. • Complete training material pack in Arabic and English. • Rate card for additional training cohorts and re-certification.

Request for Proposal (RFP) Risk Leadership Competency Model and Assessment

		orientation materials for beneficiaries explaining the competency model, the assessment, and how to use their own results. • Train-the-trainer: certification of a number of the Foundation's staff to deliver administrator and interviewer training internally thereafter. • Materials: all training materials, workbooks, e-learning, and job aids in Arabic and English, licensed for the Foundation's continued internal reuse. • Ongoing enablement: refresher sessions, briefings on new releases, and an agreed number of support hours per year, together with a rate card for additional cohorts.		
6	Rollout and Support	The objective of this scope is to embed the assessment across the Leadership Track and to sustain its quality, relevance, and technical integrity over time. The Vendor shall: • Deliver a phased rollout across the Leadership Track programs, sequenced with the Foundation's program calendar and selection cycles. • Define an operating model, including roles and responsibilities between the Vendor and the Foundation and a clear handover point after which the Foundation operates the tool. • Provide a helpdesk offering technical and professional support to administrators, participants, raters, and certified users, in Arabic and English. • Carry out periodic quality assurance covering item performance, report quality, and assessor consistency. • Provide agreed periodic reports covering usage, completion	• The engagement shall include a defined support period following go-live, the duration of which shall be proposed by the Vendor. • The Vendor shall propose service continuity and exit arrangements, including handover of all content, data, norms, and documentation. • Change requests shall be priced against the agreed rate card and approved by the Foundation before commencement.	• Rollout and change management plan. • Operating model and RACI matrix. • Support model and helpdesk. • Periodic usage and competency insight reports. • Annual review and continuous improvement plan. • Exit and handover plan.

Request for Proposal (RFP) Misk Leadership Competency Model and Assessment

		rates, competency insight across the Leadership Track, and recommendations for the Foundation. • Conduct an annual review of the model, items, norms, and reports, and operate an agreed change-request process supported by a rate card for enhancements.		
--	--	--	--	--

Project Duration

The duration of project implementation shall be approximately fourteen (14) months from the project kick-off, followed by a support and continuous improvement period to be proposed by the Vendor. The indicative phasing below is provided for guidance. Bidders shall propose their own timeline against these phases, state clearly any dependency on the Foundation, and identify the stage gates at which the Foundation's approval is required.

Phase	Timeframe
Phase 1 – Mobilisation, Leadership Track analysis, and stakeholder engagement	Months 1-4
Phase 2 – Competency model design, stakeholder validation, and Foundation sign-off	Months 4-6
Phase 3 – Assessment design, item development, and bilingual content build	Months 6-9
Phase 4 – Pilot administration, psychometric validation, norming, and refinement	Months 9-12
Phase 5 – Tool configuration, integration, testing, and go-live	Months 10-13
Phase 6 – Training, certification, and train-the-trainer	Months 12-14
Phase 7 – Rollout across the Leadership Track, support, and annual review	Month 14 onwards

Elements of the proposal

In order to facilitate the evaluation of your proposal, please include the following:

Team

- 1- Please provide the profiles of named key personnel who would be assigned to the project, including the competency modelling lead, the lead psychometrician or occupational psychologist, the Arabic-language assessment lead, the technology or platform lead, and the training lead.
 - a. Misk has the right to ask for replacement of any team member if he/she doesn't meet the qualifications.
- 2- Named personnel shall hold recognised credentials in psychometric assessment, and shall evidence prior work on competency model development and on assessment design and validation.

- 3- At least one Arabic-speaking specialist shall be assigned to the Arabic assessment content and to Arabic-language debriefs and training.
- 4- Vendor is expected to provide detailed information of the management team and specialists in the proposal with an acceptable margin of 15% of change by the time of delivery however with the same qualification. Failing to do so might result in affecting the vendors evaluation and selection (high level CVs will not be considered).
- 5- Misk team has the right to interview the proposed team members and the management team.

Technical

- 1- Vendor is expected to provide a detailed methodology on project implementation and delivery, including the competency research and modelling approach, the assessment methods proposed, the item development process, the validation design, and the structure of data storage and software used.
- 2- Vendor shall describe the competency modelling methods it will use, the evidence base it will draw on, and how it will demonstrate that the resulting model is valid for the Leadership Track and for the Saudi leadership context.
- 3- Vendor shall state the professional standards the assessment will be built to, and shall provide an anonymised sample technical manual and sample reports from comparable work.
- 4- Vendor shall describe how the Arabic and English versions will be developed and validated in parallel, and how linguistic and cultural equivalence will be evidenced.
 - a. Translation of an existing instrument will not be accepted as a substitute for parallel development.
- 5- Vendor shall set out the hosting model, data residency, retention, encryption, access control, and audit arrangements, and shall confirm compliance with the Personal Data Protection Law (PDPL) of the Kingdom of Saudi Arabia.
- 6- Vendor shall state the licensing model clearly, including the basis of the licence, its term, renewal cost, and the cost of additional volume, and shall confirm the Foundation's ownership of the customized content, norms, reports, and data.
- 7- Misk team has the right to observe assessment administration, training delivery, and debrief sessions, and to review performance at any time without giving notice.
 - a. Feedback will be shared with point of contact from the company only.
- 8- Misk has the right to be involved in all mass communication prior it's shared with the beneficiaries and has the right to view any direct communication if needed.
- 9- All assessment content, norms, reports, and data produced under this engagement shall be delivered to Misk in an agreed machine-readable format at each milestone and on exit.
- 10- The invoices will be received based on quantity of completed work, the unit price should be fixed and not affected by number of received quantity.

Proposal Submission

Proposals shall be submitted to the supplier portal. The application shall contain a separate technical and financial proposals – according to the instructions attached on the negotiations page on the supplier portal – in addition to detailing the prices on the supplier portal in the field designated for that. The following method shall be adhered to:

1. The technical proposal must at least contain:
 - a. A background on the project requirements.
 - b. Proposed solutions and services.
 - c. Implementation methodology, steps, and timeframe.
 - d. Project KPIs.

- e. Team members and expertise thereof.
 - f. Past relevant experiences.
 - g. Psychometric credentials of the proposed team, with sample technical documentation and anonymised sample reports.
 - h. Approach to data protection, information security, and hosting.
 - i. Proposed licensing model and ownership of the customized content, norms, and data.
2. The financial proposal shall be submitted in separate PDF documents and must at least contain:
 - a. Proposal/quotation includes reference number dated and stamped.
 - b. Clear deliverables as per bill of quantities or bill of amount as lump sum.
 - c. Adding expected delivery dates in all requested lines/deliverables/SLA.
 - d. Schedule of payments shall be against schedule of deliverables to be received and invoiced accordingly.
 - e. Payment Terms will be due within 30 days from invoice date.
 - f. Guarantees and support provided after delivery of the project, if any.
3. Proposals submitted after the closing date hereinabove stipulated shall be deemed to be invalid.
4. All costs shall be inclusive of all expenses, such as VAT or withholding Tax if applicable.
5. Proposals shall be valid for three months from the date of proposal submission.
6. Should the Vendor fail or breach the Agreement, the Vendor shall be subject to fines and penalties according to the Purchase Order or Contract and the applicable regulations.
7. Bidders shall not submit more than one proposal.

Queries

Any queries or concerns that may arise with respect to the interpretation of competition documents or any additional information required about the invitation to tender, including the specifications, shall be submitted to the Foundation via the supplier portal (Messages).

Queries shall be reviewed, answered, and shared with all potential Bidders, with no reference to the inquirer.

Evaluation of Proposals

Proposals shall be evaluated in accordance with all the technical conditions and specifications required to determine the best Bidder to meet the requirements of the project or required services. Proposals shall be evaluated based on unified criteria and in light of precise controls and methods for comparison, weighing, and selection. A successful Bidder will be judged on the following evaluation criteria:

- 1- Understanding of project scope & requirements
- 2- Proposed methodology & approach.
- 3- Relevant experience & references.
- 4- Team expertise & qualifications.
- 5- Project management & execution

- 6- Client engagement & knowledge transfer
- 7- Rigour of the competency modelling methodology and the evidence behind the proposed model
- 8- Psychometric rigour and strength of the evidence of validity presented
- 9- Depth of grounding in the Leadership Track and the Saudi leadership context
- 10-Arabic-language assessment development capability
- 11-Data protection, information security, and compliance

Accordingly, the best proposal meeting project requirements shall receive the highest technical rating. The Proposal cost shall be evaluated based on the following criteria:

- 1- Provide a clear and comprehensive offer for the required need.
- 2- The supplier has offered the lowest competitive and comprehensive price for all requirements.
- 3- The provided cost within the proposed budget
- 4- The proposal provided within the average offers of other bidders.
- 5- Compliance with the organization's policies, provided certificates and recommendations for previous work, and formed a good relationship and reputation with the organization.
- 6- Provided a detailed payment schedule and credit payments.

General Provisions

- 1) The regulatory document for the terms of such Competition shall be the Foundation's Procurement Policy.
- 2) All project-based employment contracts shall be subject to the Saudi Labor Law promulgated by Royal Decree No. (M/51), dated 23/8/1426 A.H., and the implementing regulations thereof, which shall be referred to in all undisclosed situations. Should there be any condition contrary to the provisions of the Labor Law, such condition shall be deemed to be void save and except such condition is deemed to be in favor of said Employee in accordance with Article VIII of the Labor Law.
- 3) Proposals shall be valid for ninety (90) days from the date of proposal submission.
- 4) All pages of this RFP, rate card, and enclosed conditions shall be stamped by the Bidder using the company's official stamp.
- 5) Misk Foundation shall be entitled to reduce and increase the numbers and quantities in the competition's rate card, whenever such change is in the interest of the Foundation.
- 6) The Bidder shall declare conflict of interest, including relatives up to the fourth degree, if any, in writing in the proposal.
- 7) The Bidder shall explain the parts to be implemented by the subcontractors within the project scope.

Key Obligations

- a. Bidders shall read the RFP and fully understand the conditions and specifications thereof as the required information, all the conditions included in the RFP, the obligations, and items agreed upon in the event of awarding the

project and signing the Contract shall be considered an integral part of said Contract.

- b. Awarded Vendor shall prepare a detailed business plan for project implementation and a detailed training plan and support plan "if needed".
- c. When necessary, the Foundation shall request technically compatible Vendors to submit presentations on the content of proposals thereof at the Foundation's premises prior to the final selection of the winning Bidder, provided that the presentation be presented by the Project Manager assigned by the Vendor.
- d. Vendors shall provide a list of suggested team members for the project, in addition to resumes, qualifications, certifications, and relevant experience. Vendors shall also provide a list of assisting residents and visitors prior to the project kick off. The Foundation's approval shall be obtained prior to the project kick off or as per the project requirements within the contract period for those who shall be required to attend later.
- e. The Vendor shall transfer to the Foundation full ownership of the competency model developed under this engagement, together with the customized assessment content, item bank, scoring rules, norms, report templates, and all data generated, and shall state clearly in the proposal any underlying licensed components together with their terms.
- f. The Vendor shall comply with the Personal Data Protection Law (PDPL) of the Kingdom of Saudi Arabia and with the Foundation's information security requirements in the collection, processing, storage, and transfer of all assessment data.

Payment Schedule:

- a. The cost of the project shall be paid in the currency specified in the financial offer in deliverable-based installments or in monthly or quarterly payment schedules supported by rate cards or deliverables delivered with the approval of the authorized individual in the Foundation.
- b. The Vendor shall be obliged to raise monthly invoices, if any, or certificates of achievement of deliverables regularly to the Foundation. Any delay in raising said invoices or certificates shall be responsible for delaying the payment of entitlements.
- c. The Vendor shall submit a deliverable-based schedule of payments in the proposal, given that at least 10% of the value of the financial proposal shall be allocated as a final settlement, which shall be the basis for differentiation. The approval of the Foundation shall be required before consolidating said schedule of payments into the Project's underlying Purchase order or Contract.
- d. The down payment, if any, shall not exceed 5% of the value of the financial proposal. The Foundation shall have the right to request a bank guarantee of the installment amount.

Project Management

General Provisions for Project Management:

- a. The Foundation adopts a flexible project management methodology (Agile) to suit the nature of sought plans and objectives. It is, therefore, important that the Bidder has a good level of capability and know-how of implementation methodology and mechanisms.
- b. Project performance reports act as the backbone of project follow-up and evaluation, and demonstrate the extent to which the Vendor is committed to the operational performance of the project. The Vendor, therefore, shall propose a list of regular and special reports necessary to meet the project control and monitoring requirements, bearing in mind that the final detailed list shall be coordinated and agreed upon with the Project Owner and the Project Management Office at the Foundation. The reporting period shall be commensurate with the duration of the project and shall indicate the progress against the plan, any issues or risks that have occurred or are expected to occur, action plans, as well as planned or adopted corrective and preventive measures.

Managing Resources During Project Implementation:

- a. The Vendor shall be obliged to appoint a General Manager for the project, preferably a Saudi national with a degree in said field or equivalent, in addition to at least five years of experience in managing similar projects. The Foundation shall have the right to reject/accept or request to change the Project Manager at any time.
- b. The Project Manager shall be given full authority to make decisions without any delay or suspension.
- c. Team members shall be fluent in both Arabic and English.
- d. The Project Manager shall carry out the duties and responsibilities thereof to ensure the implementation and execution of all provisions in the Contract. The Project Manager shall be fully accountable for controlling, monitoring, and coordinating all project tasks.
- e. The Vendor shall not be entitled to replace the Project Manager without prior approval of the Foundation, and with justification for said decision.
- f. Should the Project Manager wish to enjoy annual leave, the Foundation's approval shall be obtained by the Vendor thirty (30) days in advance, provided that said leave do not exceed thirty (30) days annually after at least one hundred eighty (180) days from the project kick off. In such case, the Vendor shall be obliged to provide a competent replacement with the same authority during the leave period of the main Project Manager. In the event that a team member wishes to enjoy a leave, the Foundation's approval shall be obtained by the Vendor two weeks prior to the leave, provided that a competent replacement is secured to pursue the project.
- g. The Foundation shall have the right to request the replacement of any team member within fifteen (15) days with justification for such replacement.

Project Information Management:

- a. The Vendor shall comply with the security regulations and rules for the management, maintenance, receipt, delivery, copying, updating, and destruction of confidential documents and information throughout the Contract term and after the end of the Contract.
- b. All data, documents, studies, and reports shall be delivered in two color-printed copies, in addition to two soft copies on a flash memory. All documents to be handed over shall be in both Arabic and English or as agreed.
- c. Any work received by the Foundation shall become the property of the Foundation and the Bidder shall not be entitled to act or use said work without prior consent by the Foundation.
- d. The Vendor shall undertake not to disclose any project-related information to any other party, save and except when necessary for the implementation of the project and with prior written consent from the Foundation.
- e. The Vendor shall take all precautions to ensure that the employees thereof comply with confidentiality requirements.
- f. The confidentiality agreement shall remain in effect even after the project completion and the Foundation shall have the right of prosecution in the event of any violation of confidentiality, as stated in the Intellectual Property Law.

Appendix 1: Acknowledgment and Undertaking
